**BECKMAN BROS., INC. OFFERS TOP-QUALITY HVACR SERVICE
WITH NATE-CERTIFIED TECHNICIANS**

Grayslake, IL – (December, 2012) –Beckman Bros., Inc. demonstrates its commitment to providing area residents with first-rate HVACR service and installation by employing technicians who have received certification from North American Technician Excellence (NATE). NATE is an independent, third-party organization that develops and promotes excellence in the installation and service of heating, ventilation, air conditioning, and refrigeration (HVACR) equipment by recognizing high-quality industry technicians through voluntary testing and certification.

By passing nationally recognized tests and becoming NATE-certified, a technician verifies that they possess the skills and knowledge to perform at the highest industry standards. Since the HVACR industry does not require technicians to take mandatory competency tests, many of today's consumers hire contractors with NATE-certified technicians to ensure they are working with qualified professionals.

“Our goal is to provide customers with outstanding service for all of their HVACR needs,” stated John Beckman, President of Beckman Bros., Inc. “By employing NATE-certified

technicians, we know that our customers are in the hands of a skilled professional who has the expertise to get the job done right.”

Since 1999, Beckman Bros., Inc. has offered HVAC services for northern Illinois.
